Enhancement of Oversight and Accountability of Audit Committee in the Public Sector

Course Overview

The "**Tanzania Public Sector Audit Committee Excellence Program**" is a 5-day intensive residency. In Tanzania, Audit Committees serve as the primary link between management, internal auditors, and the CAG. This course moves beyond theoretical oversight to practical "Impact Oversight." It equips members with the skills to scrutinize financial statements, monitor the implementation of audit recommendations, and oversee the transition to **Accrual-Based IPSAS** (International Public Sector Accounting Standards), ensuring "Clean Certificates" for their respective entities.

- **Analyze** CAG reports and internal audit findings to identify systemic institutional weaknesses.
